A brand new, pre-registered 18 plate Ducati Diavel Carbon that offers a saving of £2000. This bike comes with manufacturer warranty and roadside assistance.

This is the second generation Ducati Diavel Carbon model with an 11 degree twin spark engine that has aided in a smoother power delivery at low RPM ranges.

Still truly a bike ready to flex it's muscular 160 bhp of power, the Ducati Diavel simply oozes character. It is one of few bikes that will make you want to shut the throttle as the sound tune of the engine over run is simply infectious.

Whether you see it parked or on the move, its distinctive design and aggressive stance turns heads time and time again.
